

ACTIVITY 8: STREET OBJECTS IN OUR LOCALITY

STREET OBJECTS IN OUR LOCALITY

Don't draw pictures of litter. Please pick it up and bin it!

1. Draw pictures or take photographs of objects you can see in the street in your locality: a postbox, roadsides, traffic signals, road markings, a bus stop etc. You decide! Consider basing your Maths Trail exhibit on this display item.
Look especially for regular shapes, parallel, horizontal and diagonal lines, right angles, acute and obtuse angles etc.
2. Paste completed drawings under activity 8 on the OUR LOCALITY 1 poster.
